# Proudly We Hail

*Proudly We Hail* brings listeners the authentic voices of heroes -- heralded and unsung -- who have made and are making America's great history. It is a program built to engage and entertain those interested in the American military and its historical and contemporary impact on American life.

Episodes will be staged on America's military bases, historical sites, museums, naval ships and a host of interesting field locations. Plus, this riveting program will present an exciting contemporary web of news and events, tales of individual heroism and vital bulletins on veterans' health, support and news.

Radio Host **William Sackett**, will roam coast to coast, going past what textbooks tell us, to interview people as a living history told firsthand and unfiltered. It's real, uncensored emotion-filled descriptions of what really happened, then and now.

Scheduled guests include Medal of Honor winners, nationally acclaimed authors and expert consultants, as well as media and motion picture celebrities.

Executive producer Lou Reda Productions [www.redafilms.com](http://www.redafilms.com) has produced over 400 cable and network specials and series episodes appearing on the A&E Television Network, The History Channel, Biography and CBS.

Sponsors include the National D-Day Museum, New Orleans, LA. and the United States Naval Institute, Annapolis, MD.
