

# Patrols

During her deployment, HAMILTON made a total of seven patrols, ranging in length from ten to forty days. Without a doubt, the most important single evolution that HAMILTON carried out during these patrols was the UNREP (UNderway REPlishment.) for from this we received fuel, food supplies, spare parts, mail, etc. We performed a total of 38 UNREP's, and after a while, the names CHEMUNG, CHIPOLA, TOLOVANA and several others became household (or rather, ship-board) words with the men of the HAMILTON.

## UNREPS
