Roger talks the problem over

The XO heads for the beach

Anguar Island is located in the Pulau group of the Caroline Islands. There was 5,710 pounds of cargo to be off loaded so it was not necessary for the KUKUI to anchor. We simply drifted off of the island and used one boat to make the only cargo run necessary. EMCM Roger Kroger was called into action when the station experienced trouble with one of its generators. Chief Kroger and EM3 Dan Klebs were able to fix the trouble and four hours after arriving the KUKUI was underway again.
