

September 7th was a great day for all hands as the USCGC BIBB relieved us at the end of our last patrol. We happily hoisted the "Haulin A" flag and set sail for Singapore. From there we went to Subic Bay for the last time where we off-loaded our remaining ammunition and had some engineering repairs completed. Then, of 24 September, off towards Long Beach.

"Boy, are you a beautiful sight!"

We got to unload ammo for a change.
