

AEROLOGISTS

The AG's gaze daily into their crystal ball to come up with a weather forecast for the following 24-hour period. Theirs is the never-ending job of compiling weather information through surface observations, radiosondes, and bathythermographs. They predict with uncanny accuracy; for instance during the entire time we were in the Kara Sea they predicted fog, and who could deny that!

Marvin Koppenhoffer prepares a weather balloon.

... and off she goes!

Robert Bowman of the U.S. Weather Bureau studies a radio recording from the weather balloon.
