

ARRIVAL IN SUBIC BAY

SPENCER'S Tripod

19 February 1969—

Wearing a new look, complete with psychedelic tripod, the USCGC SPENCER arrived in Subic Bay, R.P. and commenced relief of the USCGC BIBB. On the second day in port, Commodore Sherman K. FRICK, Commander Coast Guard Squadron Three, inspected the ship and crew and found us the "best looking" to inchoop during his Command. Briefing aboard the BIBB blended on late into the afternoon, and, in many cases, was finished over beer in beautiful downtown Olongapo.

Last minute preparations and readiness checks were made by all departments prior to departure, and on 22 February the SPENCER sailed for Viet Nam and her first patrol on the Market Time Barrier.
