

Hong Kong night life had many places to offer for fun, excitement, and entertainment. "The Cave" became a regular evening hangout for the crew during our 16-day stay. During the day, tours were offered of Kowloon where we saw the New Territories of the British Province and the Red Chinese border. Tours of Hong Kong covered everything from Repulse Bay to Upper Hong Kong.

"NOW THE DUTY DC LAY TO THE LAUNDRY ON THE DOUBLE."

The city itself is one of the largest in the world. Many of us got lost in the overcrowded sidewalks of Upper Hong Kong during the rush hours while others took their new cameras to Victoria Peak and photographed the skyline of both Hong Kong and Kowloon.

On July 10 when we left the British Crown Colony we took with us many souvenirs and memories of one of the most beautiful and exciting cities in the world.
