

FIRE CONTROLMAN

Phillips FT1

Charles Jenne, Ellie Pittman, Lawrence Conner and William Sapp

Four Weather Bureau personnel, commonly referred to as the "Weather-Birds," accompany the TANEY on all of her Ocean Station Patrols. The Weathermen are responsible for taking hourly weather observations, and releasing four RAWINSONDE balloons daily. All of their computed temperature, humidity, and pressure readings are coded and sent off to Weather Centers in San Francisco and Honolulu so future weather can be forecasted. Of course, when the weather gets bad, you can guess who gets the blame . . .
